

QUALITY POLICY

AeroChamp Aviation (Intl.) Pvt. Ltd. through its depth of knowledge and expertise, offers a wide range of products and services to the Aviation, Defence and Aerospace industries in maintenance cost optimization, reverse engineering, design, development and manufacturing of airborne components and sub-assemblies.

We are committed to meet the Airworthiness and Aerospace standards through strict compliance with the quality system implemented in our organization.

- a) **Keeping the interest of our Nation, above everything else** – Play an active role in Indigenization projects in line with the “Make in India” initiative.
- b) **Customer Centric Approach** – where quality requirements of the customers assume the highest priority.
- c) **Continual Improvement** – of our capabilities & processes, by involving employees, suppliers & partners.
- d) **Develop Products & Solutions** – based on customer and industry requirements.
- e) **Prudent & Pro-active investment** – in our infrastructure to meet the current & future demands of the business.
- f) **Periodic Training** – of our employees to achieve Quality Assurance standards.
- g) **Prompt Customer Support** – through the life of the project / product in order to achieve customer satisfaction.

We believe that **Total Quality Assurance** is achieved, when you achieve **Total Customer Satisfaction!**

Dr. Praveen Srivastava (PhD)
